

**PARENT TOPIC 9
TAKING CONTROL - MAKING CONNECTIONS**

Saving ideas

Think about saving for one of the following:

- a special birthday present
 - a special family treat
 - to buy and run a mobile phone for a year (see next page for information)
- * my own option

Work out:

1. How much would you need to save?

2. How much would you need to save each fortnight if you had 6 months to save?

3. How much would you need to save each fortnight if you had 12 months to save?

Saving places

What are some of the places to put the money you want to save?

Some suggestions are:

- Start up a special savings account
- Open up a no fee credit union or bank account
- Open a cash management account

Any other suggestions?
